

## SMSTL20 Datasheet

<b>Product Name:</b>	<b>Length:</b>	<b>Width:</b>
TL20	205mm	60mm
<b>Height:</b>	<b>Weight:</b>	<b>Scissors Body Material:</b>
28mm	170g	Stainless Steel

### Features And Benefits:

1. This SMT splicing scissor have special positioning function which its positioning pins for aligning carrier tapes before cutting.
2. It can be locked device tightly in unused, it can condition to avoid hurting operator's hand. safe and reliable.
3. It made with special material. It is very sharp and durable . service life is more 10 times than ordinary cutter.

### Application:

A good and convenient splice scissor used for 8mm carrier tape with positioning function.

### Serial Number:

Serial Number	Subjects	Parameter	Tolerance
1	Length*Width*Height(mm)	205*60*28	±5
2	Weight(g)	170	±10

### Attentions:

1. Storage:Pay attention to moisture ventilation; If bulk storage, keep the integrity of the packaging.
2. Transport:Don't remove the packaging during the transshipment.
3. Usage:Please use it normatively, can not be used for cutting metal objects, can not be played with sharpened scissors mouth, so as not to hurt!

### Maintenance:

Maintenance on time, add a little lubricating oil to activity components.Maintenance frequency is 2-4 times /Month.

**What are our advantages?**

1. Professional tape manufacturer for nearly 20 years.
2. Good reputation and after-sales service team.
3. Very competitive price and high quality control.
4. Timely delivery.

**Notes:**

Please be advised that this technical data sheet is written based on our lab tests and experience only. Customer is responsible to determine the suitability of the product meets intended application requirements before approved for use.
