

**Product Name:** MCP2515 CAN Bus Module TJA1050 Receiver with Protocol Sensor Module

### Products Description:

Supports CAN V2.0B specification, the communication speed 1Mb/s.  
0 to 8-byte data field.

With standard frame, expand the frame and remote frame.

5V DC power supply module, interface protocol control.

120 ohm termination resistors. With impedance matching, ensures the drive capacity, long-distance data transmission against signal radiation.

### Product Features:

Working voltage: DC 5V

Working current: 5mA (1 microamp standby current. Except the power indicator)

Dimension: 4.4cm x 2.8cm

Screw hole center spacing: 23mm x 38mm

Working temperature: -40° C ~ 85° C

### Package Included

1×PCS MCP2515 modules
