

LCR T4 Multifunctional Resistor Capacitor Tester Diode SCR Inductor Triode LCR-T4

Product Description

- Chip:Atmega328
- Weight:50g
- Application:STEM education,DIY project

- Packaging:Standard Anti-static Poly Bag

Description:

- 1.Digital 128*64 LCD display for easy readings, can display measured data and graphics.
- 2.Short detection time: only 1.7 seconds. It is normal to take 1 minute for bulk capacitor detection
- 3.Automatic detection of NPN and PNP transistors, N-channel and P-channel MOSFET, diodes, triodes, resistors, capacitors or other devices
- 4.Use 9V battery(not included), can also use DC power(DC 6.8-12V). Automatic shutdown, shutdown current is only about 20nA.
- 5.Measure the gate threshold voltage and gate capacitance of the MOSFET,Measure bipolar transistor current amplification factor and base-emitter threshold voltage

Package Include:

1 x Digital 128*64 LCD display
